# Debt Freedom, "PRI" and Financial Independence Program

Information, access to education, capital, or opportunities by themselves do not translate into positive actionable results. What is needed to succeed is the proper mindset, which allows you to make the right decisions and take the positive actions necessary to live a Debt-Free, Financially Independent, purpose driven, fulfilled, healthy, loving life.

If this is the result you are seeking, then this is the program for you.

This unique transformational program is the first of its kind. It provides opportunities for lasting change and the creation of generational family wealth. The side benefit of the program is the removal of the effects of negative experiences, which can help in the fight against the high rates of substance abuse, crime, violence, and suicide, especially among our youths.

Finally, this program can bring about a national mindset-change movement, which is needed for us to deal with major social issues that is upon us, ranging from climate change, disruption in the job market (due to the advancement of artificial intelligence and robotics), to the fallout of potential chemical warfare.
